

CORONAVIRUS DISEASE 2019 (COVID-19)

We understand that the spread of the Coronavirus Disease (COVID-19) is much easier to spread without adequate access to hygiene facilities or a safe home, so we want to share a few recommendations for community members experiencing homelessness.

The Public Health Department reminds the community of the steps to take to protect their health and the health of those around them:

- Wash your hands with soap and water
- Avoid touching your eyes, nose, or mouth with unwashed hands
- Avoid close contact with people who are sick
- Stay away from other people if you become sick with respiratory symptoms like fever and cough
- If you develop a fever, cough or experience shortness of breath please contact your medical provider.
